

B7 XL Dimensions

B7 XL seats are matched to bracket sets PTBi, PTBO, TBFIA, STBi, STBO, and Elise brackets EBR, EBR 17+, EBS, EBP. These brackets have a 2° from vertical angle, which matches the side of the seat. Brackets which do not match this angle will unduly stress the composite.

When the base is set parallel, the distance between the dome on the bottom of the B7 XL seat and the mounting frame is 40mm.

Shown using optional TBFIA brackets
